

ROGUE²

FIND YOUR LIMIT... AND PUSH BEYOND.

The redefined style and superior design of Rogue² is the perfect balance of performance, functionality and self-expression. Developed to fit any lifestyle, every element of the chair has been enhanced to provide you with an optimal experience, wherever you go.

PERFECTLY FIT. AND PERFECTLY FITTING.

The lightest-in-class and engineered to be the perfect fit for your first chair or your next chair. Enhanced strength and durability paired with the right amount of adjustability lets you maximize your efficiency over the life of the wheelchair.

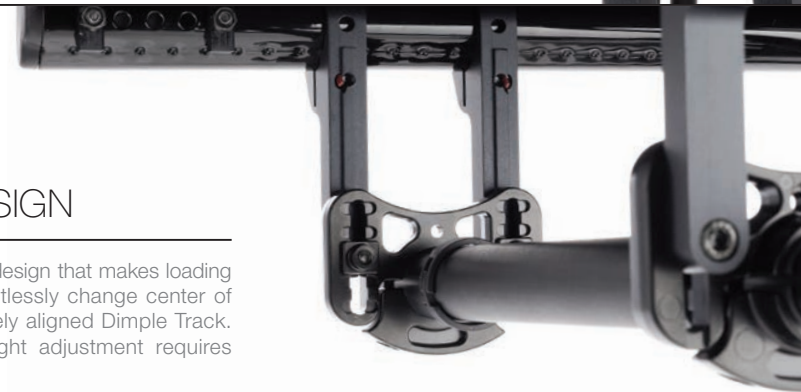

BACKREST DESIGN

Adjusting the backrest has never been easier, using one tool and no disassembly, change the backrest angle while the chair is occupied. Relax or adjust your clothing by simply engaging the relaxed position.

INDEXED DESIGN

Finally, a camber tube design that makes loading your chair easier. Effortlessly change center of gravity with the precisely aligned Dimple Track. Indexed rear seat height adjustment requires no disassembly.

WING DESIGN

Optimized wing design lets you get closer for transfers. Corrosion resistant components protect your chair from the elements. Easily get aligned with Ki's intuitive Caster Angle Adjustment System.

STYLE AND PERFORMANCE. REDEFINED.

"It is so important to have a chair that fits me and meets my needs. This is the first wheelchair that feels custom made for me. I can't believe I'm saying this, but I feel so free in it! I'm so happy to be able to go about my day confidently."

- Amanda Steijlen

*Founder,
Wheely Big Dreams*

"My passion for outdoor adventure takes me all over the world. Having a chair that can keep up and hold up in remote and rugged locations is essential."

- Joe Stone

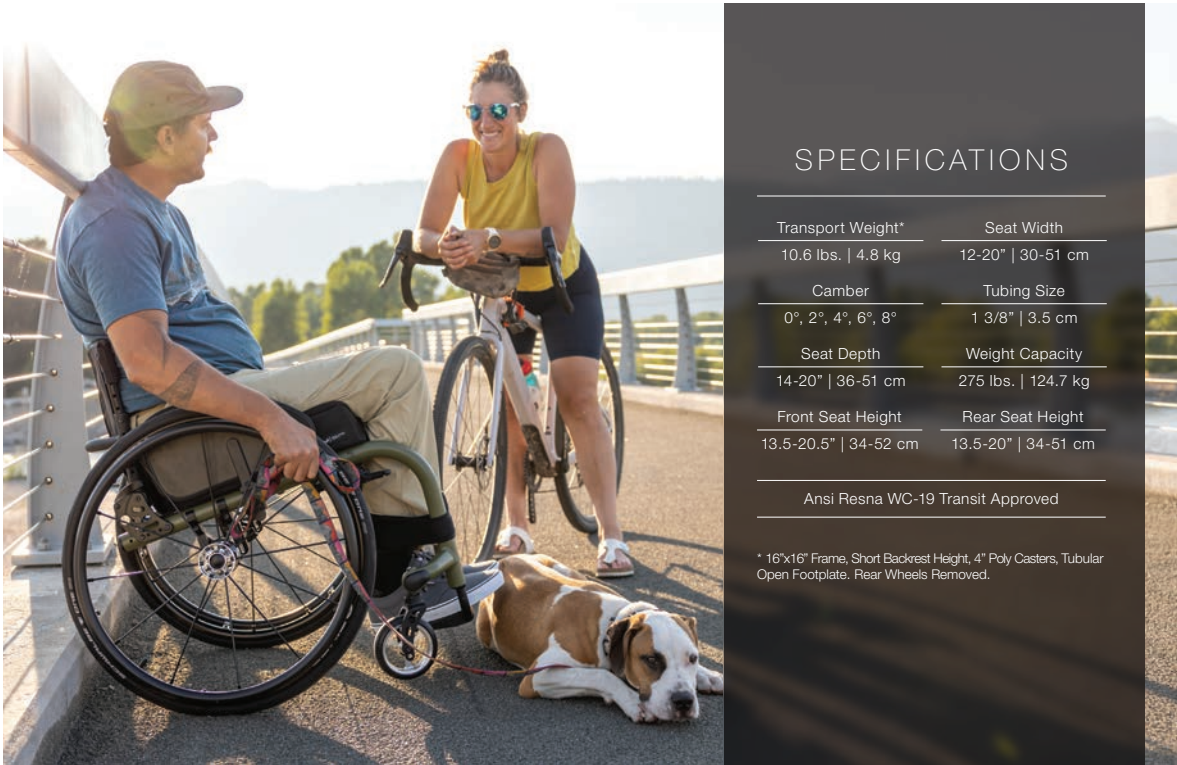

*Director of Mission,
Teton Adaptive Sports*

MAKE IT YOUR KIND OF... ONE OF A KIND.

Looking good and feeling good go hand in hand. The elegant, sculpted design will make you feel confident wherever you go. Minimalistic or edgy, make your chair one of a kind with the Color Visualizer.
